

**GF Machining Solutions**

## **Step-Tec - always a step ahead**

**Our range of Spindles, solutions and services is as unique as your requirements to stay-ahead in daily competition. Whether your application is in milling, drilling, turning or grinding, we are here to listen and serve.**

With our experience since 1995, we focus on supporting you in positioning yourself with outstanding results, whatever your demand: productivity, availability or superior quality.

That's why - in a very cost - sensitive environment, we continue developing extremely durable products. And that's why we offer a comprehensive range of standard and tailored products which, thanks to the integration of the latest technologies in sensors, data management and high efficiency motors, continue justifying our credo: Step-Tec: always a step ahead.
