

Welcome to the world of clean water

HIGH QUALITY MACHINES, PLANTS AND STAINLESS STEEL EQUIPMENT FOR THE TREATMENT OF MUNICIPAL AND INDUSTRIAL WATER, WASTEWATER AND SLUDGE

As an international company we support our customers worldwide with efficient and innovative solutions and processes, competent advice and reliable service. More than 40,000 installations of HUBER plants world-wide contribute to a sustainable use of water, energy and resources.

Products and equipment for your individual needs

A full range of machines and plants for treatment of wastewater, process water, potable water, grit and sludge from one source.

HUBER Solutions - for local and global challenges

We offer innovative and reliable solutions for sparing and sustainable management of scarce resources, for recovery and recycling of energy and materials.

News

HUBER investing in location Berching-Erasbach again

09.07.2018 | On July 5, politicians of the administrative district Neumarkt visited HUBER SE under the heading of "Innovation Exchange – Politics Meets Business", among them State Minister Albert Füracker, head of the district authority Willibald Gailler and the mayor of Berching, Ludwig Eisenreich. On that occasion, they attended also the symbolic groundbreaking ceremony for the expansion of HUBER's production hall by another 2.600 square metres.

HUBER offers Excursions during IFAT 2018
