

A NEW STANDARD FOR FILLING AND CLOSING OF CANS AND JARS

1 2 3 4 5 6

New Can Line

The newest development of the V-matic Can Line is now available!

V-matic System

With our V-matic machine you can evacuate, aerate and seam cans with a high efficiency.

Swiss Can Control 4.0

With our new Swiss Can Control 4.0 you always have an excellent overview of your entire can line.

Swiss Can Machinery – Filling and Closing Machines for cans and jars

Swiss Can Machinery AG is your competent partner for innovative machines and components for filling and closing cans and jars with powder and dry products. In our own development department with experienced engineers we develop, design and realize individual machines as well as complete filling lines – customized to the individual needs of our international customers.
