Welcome

AGM Jactex AG was founded in March 1997 as a „MBO“ of AGMüller in Neuhausen – Switzerland.

We are specialised in the production and distribution of **Accessories for the Jacquard weaving industry** as well as for the **weaving industry** in general. Our company is continuously investing considerable financial resources in the development and in the ultra modern production facilities. The goal is the best possible productivity. We also have a department for the independent construction of our special machinery of all kinds.

Consequently we are able to quickly adapt to the constantly changing requirements of our market and customers as well as to set new standards.

Our customers and staff are very central to us. Being able to keep the workforce in difficult economical times is our concern and pride. We can only achieve this thanks to a high degree of flexibility and customer oriented solutions and services.

Our product range comprises all kinds of [Harness Cords](#) and [Knife Cords](#), [Comber Boards](#) and [Guiding Boards](#) made of [Vulcan Fibres](#) or Dellrin as well as [endless Jacquard Papers](#), Harness Springs with Healds and [Harness Pulley Cords](#).

We manufacture all kinds of **braided cords** and **ropes** in our **braiding, twisting** and **bobbin winding** department.

On our **CNC-Machines** we do all kinds of **Drilling** and **Milling** according to our customers requirements.

Furthermore we offer all kinds of slitting of paper-, plastic- and rubber rolls on our high-tech **Slitters**.
