Welcome to Bräcker

Enjoy Performance.

Uncompromising quality and extensive industry knowledge make Bräcker the market leader in the manufacture and marketing of key components for ring spinning machines. This is evident not only in the wide range of excellent products but also in the distinctive competence of the staff to advise and provide solutions.

Thanks to leading-edge technology and innovative components manufacturing, we as a quality-certified company guarantee with our products maximum production capacity together with maximum operational reliability. Through constant monitoring, we ensure optimal quality consistency in production.

The profound knowledge of technology and components gathered over decades is continuously being enhanced and perfected. Our staff have many years of industry knowledge, giving you as a customer the certainty that the optimal products will be specified for your specific project.

As a Bräcker customer you can benefit from fast, direct access to a worldwide sales, consultancy and service network – and you can rely on having a competent partner as your contact person. The representatives are a part of your particular country's culture and they are in constant contact with the main office. So the knowledge gained in practice flows continuously into innovating products and services.

The Bräcker advantages in a nutshell: consistent increase of profit and success for your company.

SPINNOVATION No. 32

ONYX Travellers – An optimized surface functionalization
