Energy from Waste

Ramboll is internationally recognised as the world-leading waste-to-energy consultancy. We can provide our clients with well-considered advice throughout all phases of the project – from idea to reality – based on our comprehensive experience from waste-to-energy projects all over the world.

Reference projects

Here (https://issuu.com/ramboll/docs/brief_wte_reference_list_en?e=4162991/11543842) you can find some of our references.

District Energy

Ramboll has provided consultancy services to more than 200 district heating companies worldwide. In some cases services have been provided to the same clients for more than 30 years. Our services cover all scales, from small village schemes to city-wide transmission networks. We are universally regarded as one of the most experienced district heating consultants in the world and one of the very few offering a full range of services.
