CEDES develops intelligent, safe sensor solutions. We combine pioneering spirit with Swiss quality to strengthen our customers' powers of innovation around the globe.

## WHAT'S NEW AT CEDES

**(/en/news-archive/pioneer-newsletter-q2-2018/)**

## Pioneer Newsletter Q2 - 2018

08/02/2018

The 2018 World Cup is an excellent example of how a small nation or team can excel on an international stage. Croatia illustrates this best in how they took on big footballing names such as England and Argentina and emerged victorious to book their place in the final itself.

## Start saving energy – with the TOF/Start

08/01/2018

Regular escalator detection sensors save energy. However, CEDES' TOF/Start sensor saves up to six times more - and this cost-saving sustainability is attracting increasing interest among architects, planner and facility managers.

## APS now features RS485

06/14/2018

The revolutionary APS (Absolute Positioning System) product range now features a version with an RS485 communication interface. This new version can be ordered immediately. The APS RS485 meets SIL3 requirements to EN 61508 and can be used by an appropriate control unit to implement applicable safety functions according EN 81-20. It is certified by TUEV Rheinland

CEDES has been a pioneer in elevator sensor solutions for decades. We are leaders because we anticipate change. With APS (Absolute Positioning System) and iDiscovery hoistway information system, we are paving the way from mechanical to electronic solutions for hoistways. Our solutions have so much potential, it's a very exciting time to be involved.

Michael Schatt, R&D Teamleader

## OUR HEADQUARTERS

sure efficient production.

Automated processes reduce costs and help

## Our headquarters in Landquart

Set against the spectacular backdrop of the Swiss Alps, CEDES' state-of-the-art Science Park headquarters in Landquart develops and produces millions of individual sensors every year. From the first design steps within the various R&D departments through to the final product coming off the production line, it all happens within the walls of the five-block facility. This ensures our hallmark Swiss quality and provides the hands-on flexibility to deal with customer-specific requirements.
