Hybrid Drives are the Future of the Ocean

We know all about hybrid drives from cars, but even out on the high seas, the combination of electric motor and diesel engine has many advantages. You can read more about what these advantages are and which ships benefit from them in our magazine.

#SMARTLOGISTICS

Autonomous Driving on the Last Mile

In Germany alone, parcel couriers deliver more than ten million parcels every day – and the trend is rising. With an interconnected and autonomously driving concept vehicle, ZF shows how parcel delivery can be handled with less stress.
