ABB Turbocharging

ABB Turbocharging is a technology and market leader in the manufacture and maintenance of turbochargers for 500 kW to 80+ MW diesel and gas engines.

With 100+ ABB-owned Service Stations worldwide and 200,000+ ABB turbochargers in operation across the globe on ships, power stations, gen-sets, diesel locomotives and large, off-highway vehicles, ABB Turbocharging is committed to:

- Building the best turbochargers in the business.
- Assisting customers to maintain those turbochargers in peak condition and at optimum performance throughout their entire lifecycle.
